WASHING THE DISHES

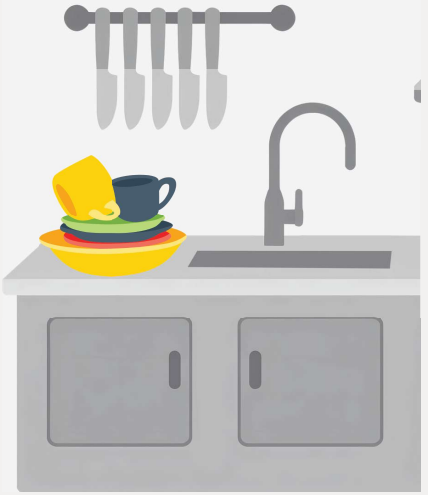

Washing the dishes is important.

I need to wash the dishes I use. It is part of being responsible.

I gather the dirty dishes near my sink.

I fill the sink with warm water. I make sure the water does not overflow the sink.

I add dish soap to the water. I add enough so the water has some bubbles, but not too many.

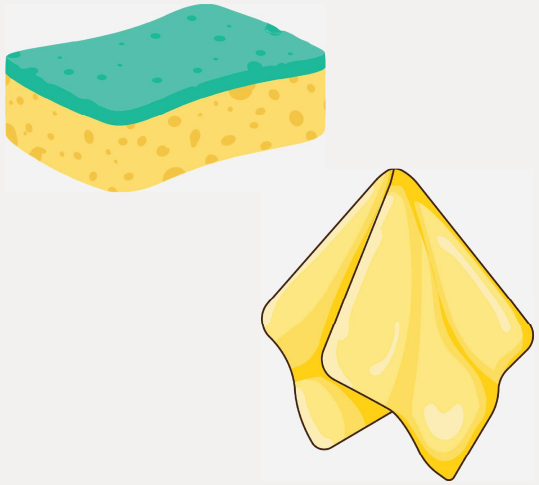

I put the dirty dishes into the soapy water. If the water begins to overflow, I need to drain some of it out.

WASHING THE DISHES

I use a sponge or washcloth to wash the dishes.

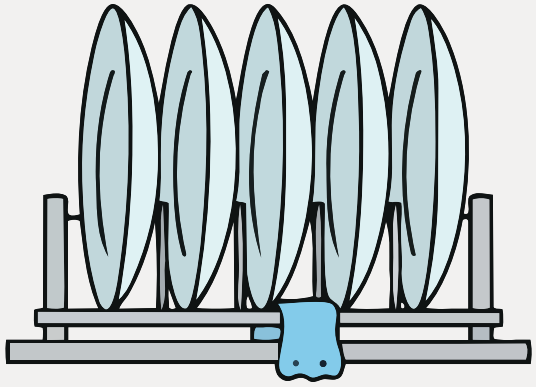

I wipe the entire dish, cleaning off all the dirty spots.

When the dish is clean, I rinse it off with clean water.

When the soap is off the dish, I place it in a drying rack or dry it with a clean towel.

I do this with each dish.

I put the dishes away when they are dry.

ASERT
Bringing autism resources together.
