

Hello Summer

STAY SAFE

- Stay 6 feet apart from people who are not in your household. Don't hug/kiss/shake hands with people not in your household... an elbow bump or smile will do!
- Gather with people in outdoor, uncrowded spaces.

USE CDC GUIDELINES

- Stay up-to-date on health information here.
- Check location-specific information, whether you're staying home or traveling!

MASKS KEEP US ALL SAFE

- Wear a mask when inside a public place, friends' homes, or in crowded outdoor spaces.
- Ask others to wear a mask when inside your home or vehicle.

MAKE SAFE CHOICES FOR EVERYONE

- Stay home if you or a family member has symptoms such as fever, cough, or shortness of breath.
- Use disposable plates, cups, and cutlery if sharing a meal with friends.
- Make/bring your own food and drinks to parties.

EXPECT CHANGE

- Guidelines and advice may change as more information is learned about COVID-19.
- Restrictions may become more or less strict as time goes on.
- Make flexible reservations in case plans must change.

REMEMBER HAND SANITIZER

- Hand sanitizer can help keep your hands cleaner on the go,
- But washing your hands with soap for 20 seconds or more is still the best way to get the virus off your hands.
