

# Philadelphia Coordinated Health Care

**LIVE WEBINAR**

## “Visual Thinking”

In her new virtual presentation, “*Visual Thinking*” based on her newest literary offering, Dr. Temple Grandin helps us understand how a world increasingly geared towards people who are verbal, tends to sideline those who are visual thinkers, screening them out at school and overlooking them in the workplace. Rather than continuing to waste their singular gifts, which drives a collective loss in productivity and innovation, Dr. Grandin proposes new approaches to educating, parenting, employing, and collaborating with visual thinkers.

### Learning Objectives:

- New ideas for educating the “visual” thinker
- Helpful advice for raising a child who sees things visually
- Enabling the visual individual to find their “niche” in life
- Embracing visual thinking and applying it to the workplace

**\*\*After registering, you will receive a confirmation email containing information about joining the webinar\*\***

### Presenter:

**Dr. Mary Temple Grandin** is an American academic and animal behaviorist. Grandin is one of the first autistic people to document the insights she gained from her personal experience of autism. She is currently a faculty member with Animal Sciences in the College of Agricultural Sciences at Colorado State University. In 2010, Time 100, an annual list of the 100 most influential people in the world, named her in the "Heroes" category. She was the subject of the Emmy- and Golden Globe-winning biographical film Temple Grandin. Grandin has been an outspoken proponent of autism rights and neurodiversity movements.

Funding provided by Philadelphia Department of Behavioral Health/Intellectual disAbility Services, the Bucks, Chester, Delaware and Montgomery County Offices of Intellectual/Developmental Disabilities and the Office of Developmental Programs, Pennsylvania Department of Human Services.
